Bodegas Fabre

#### Bodegas Fabre, Mendoza and Patagonia

The award-winning Bodegas Fabre winery is a family-owned company set up and run by husband and wife Hervé and Diane Joyaux Fabre. The winery was established in the early 1990s when Malbec was viewed as little more than a blending partner. Seeing the incredible potential of the Argentine terroir, Hervé Joyaux Fabre bought a number of Argentina's oldest Malbec vineyards in Mendoza.

His Bordeaux background dictates an elegance and subtlety to his winemaking and since 1992 he has dedicated all his savoir-faire and passion to his wines, being one of the first winemakers to produce a single varietal Malbec in Argentina.

Bodegas Fabre produces a range of wines which showcases the depth and elegance that Argentina can offer. Their wines have won praise from the critics and have earned them over 280 international awards in the last 10 years alone. This includes Bodegas Fabre winning IWSC Argentine Winery of the year and Hervé J.Fabre winning IWC Red Winemaker of the year.

The Phebus range combines Argentina's purity of fruit with elegance and complexity. Underpinning all of this is Diane and Hervé's unshakeable belief and determination that all their wines should express the local terroirs as elegantly as possible.

#### Domaine de La Viborne, Mont-Sur-Rolle

Domaine de La Viborne has a very special connection to us as it has been in François Schenk's family for several generations. Built around a typical wine house dating back to 1627, La Viborne is based in the region of La Côte (canton Vaud) overlooking Lake Geneva, which used to be part of the Savoie region in neighbouring France. François Schenk's grandfather, affectionately nicknamed 'Le Grand François', always claimed he was more 'Savoyard' than Swiss.

The domaine belonged to the Desponds family since 1931 with François Schenk's great grandfather Alfred at the helm. This relatively small estate (only 2 hectares) is entirely organic and is now managed by François who represents the 4th generation of the Despond (his mother's maiden name) family.

If we put end to end the walls that support the 220 terraces of the Domaine du Mont d'Or, this would represent 15 km. The vineyards cover an area of 24 hectares in one piece. The Johannisberg, king of the vineyard at the Domaine, is planted on half of this area.

The estate is part of the Montorge natural site included in the inventory of natural sites of national importance. A dozen gatehouses (called "guérites") bring a touch of colour to the Domaine's vineyard.

#### Siccus Johannisberg, Valais 🔇

This wine is made from 100% Sylvaner. Lively, green, slight golden reflection. Youthful and vibrant with fine notes of citrus, lemon and grapefruit.
